

## Come see the possibilities.

Have you heard that homes in Texas with new advanced digital meters – “Smart Meters” – are receiving new products and services from innovative retailers?

Did you know there is an ecosystem of home electric vehicle charging docks and network charging stations united by affordable charging plans available in Texas?

Reliant is pleased to invite you to experience the Smart Home and see for yourself what the new “Smart Meters” and charging network can do to add convenience to your life. Come learn how your home uses electricity and how the NRG family of companies delivers consumers and businesses the benefits of the smart meter - enabling insights, choice, and convenience.
